

Annual Program Assessment Plan/Report

Date of Submission:

Instructions and Samples

Student Learning Objectives	Measure	Outcomes			Analysis Refer to Trends	Plans Recommendations for Change and Assessment
		2003	2004	2005		
Tie the objective to the program goals and indicate how objectives are assessed and what the outcomes should be. For example 90% of the students will demonstrate (how to meet objective) by obtaining a 80% on the MFAT exam.	What type of measure is used (example ACAT,MFAT, local test, or others).	# of student's assessed and how many met the objective	# of student's assessed and how many met the objective	# of student's assessed and how many met the objective	Use the numbers and percents from the 3 previous years to describe how the program is progressing over time. If this is a new assessment other comparisons (i.e. benchmarking or comparisons against the objective may be used)	Use the data collected to recommend changes to the program, measure, teaching methods and others to improve student learning. Size of class room and more faculty is to be reported in other criteria.

This constitutes a program plan for the future and report for the past year.

As we begin use of this form, the first due date is Oct. 1, 2006 using the past year academic data.

In 2007 the due date is May using the previous calendar year data.
